AI for Building and Environment Design

HIGHLY COMMENDED

#738 – Utilizing AI Technology to Enhance Risk Identification in Infrastructure Projects: A Review

FREDRICK AHENKORA BOAMAH

Sponsored by

AI for Building and Environment Design

WINNER

#718 – Artificial Intelligence as a Driver of Sustainability in the UK Construction Industry

Dr Sylvester Manege

Sponsored by

Energy-Efficient Modelling, Simulation and BIM

WINNER

#754 – Evaluating Living Facade Systems for Operational Carbon Reduction in Tropical Buildings: A Simulation-Based Approach

Dr Akila Rathnasinghe and Mr Ashen Rahubadda

Sponsored by

Behavioural Studies

WINNER

#773 – Valuing the local: Building relational capacity for sustainable retrofit delivery

Dr Louise King

Sponsored by

Building Performance Analysis and Evaluation

HIGHLY COMMENDED

#742 – Integrated Life Cycle Environmental-Economic Assessment of Prefabricated Mass Housing Systems

Ms Rukhsar Sayed

Sponsored by

Building Performance Analysis and Evaluation

WINNER

#722 – The illusion of energy efficiency and its misalignment with net zero goals in the residential sector

Mr Jordan Turner

Sponsored by

Circular Economy

WINNER

#747 – Bridging Innovation and Sustainability: A Systematic Review of Barriers to Robotics in Infrastructure Projects

DR SAEED REZA MOHANDES

Sponsored by

Consequences of AI on people

HIGHLY COMMENDED

#786 – Policy Management of Soft Technical Risks in AI-Based Systems

Dr David Love

Sponsored by

Consequences of AI on people

WINNER

#769 – “Hard Hats, Smart Bots: Rethinking Teaching, Learning and Assessment in Construction Management in the age of GenAI”

Dr Jim Bradley

Sponsored by

Energy-saving strategies

WINNER

#748 – Incorporating traditional Eyvan into modern architecture for sustainability: A novel hybrid systematic-algorithmic-perspective review paper

Maedeh Sadat Mirdamadi

Sponsored by

Integrating Urban and Natural Environments

WINNER

#723 – Evaluating Coastal Vulnerability to
Climate-Induced Sea Level Rise Using DEM
and LULC Integration

Ms Neha Priyadarshini

Sponsored by

Occupant Behavioural Analysis and Change

HIGHLY COMMENDED

#764 – Understanding Occupant Priorities for Thermal Comfort and Passive Design Strategies in Residential Choices: A Case Study of Multi-Storey Residential Buildings in Pune, India.

Ms Shivani Senthilkumar

Sponsored by

Occupant Behavioural Analysis and Change

WINNER

#755 – Building Stress and Indoor Comfort:
An Experimental Approach for
Environmental Quality

Lisa Mensi

Sponsored by

Project Management

HIGHLY COMMENDED

#727 – Exploring the Potential Impact of Artificial Intelligence in Australian Engineering Project and Asset Management

Honorary Professor David Thorpe

Sponsored by

Project Management

WINNER

#815 – A conceptual digital twin-blockchain integrated framework to optimise building handover

Dr Mahendrini Ariyachandra

Sponsored by

Renewable Energy

WINNER

#757 – From Pilots to Practice: Scaling Smart Local Energy Systems for Urban Decarbonisation

Professor Rajat Gupta

Sponsored by

Sustainability, Ethics and Responsibility

HIGHLY COMMENDED

#778 – From Analogue to Digital: Technology, Citizen-Generated Data, and Environmental Governance in Africa

Ms. Ndono Phyllis

Sponsored by

Sustainability, Ethics and Responsibility

WINNER

#726 – Retrofitting Vulnerability: Reframing the dwelling retrofitting challenge

Dr Nadeeshani Wanigarathna

Sponsored by

CIOB AWARD FOR BEST TECHNICAL PAPER

£100 CASH PRIZE

#769 – Hard Hats, Smart Bots: A Framework for Integrating GenAI in Construction Management education.

Dr Jim Bradley

CIOB AWARD FOR BEST PRACTICE BASED PAPER

£100 CASH PRIZE

#784 – The benefits of an effective PFI expiry team

Dr Josie Rothera

EMERALD PUBLISHING AWARD (1)

BOOK PRIZE

#803 – Artificial Intelligence Adoption in UK
Construction Project Management: A Structured Survey
Using a PMBOK-Anchored Impact Assessment
Framework

Dr Chukwuma Michael Anyigor

Sponsored by

EMERALD PUBLISHING AWARD (2)

BOOK PRIZE

#749 – Before the Algorithm: From Informational to Predictive Authority in the Digital Transformation of Project-Based Firms

Dr Amna Shibeika

Sponsored by

EMERALD PUBLISHING AWARD (3)

BOOK PRIZE

#716 – Technical Practitioner Perspectives on the Social Feasibility of Decentralised Water Systems in Makoko, Nigeria

Mrs Aderonke Olanrewaju

Sponsored by

ONE YEAR ISEP AFFILIATE MEMBERSHIP

#752 – A Stakeholder-Driven Sustainable Brownfield Regeneration for Housing & Infrastructure: A Conceptual Framework

Mr Jesse Letsuwa

Sponsored by

Chair's Award – Dr Ali Saad

#724 – How the construction industry leads the way in social value creation

Dr Greg Watts

Sponsored by

Chair's Award - Professor Colin Booth

#761 – Integrated Constructed Wetlands-Engineered Hydrosystem Plasma for Agricultural Wastewater: Production and Application of Plasma-Activated Water (PAW).

Mr Muhammed Hossain

Sponsored by

Chair's Award – Professor Chris Gorse

#716 - Work-Life Balance in Irish Construction Site Management: Fallacy or Reality?

Dr Michael Curran

Sponsored by

Chair's Award - Professor Darryl Newport

#757 – From Pilots to Practice: Scaling Smart Local Energy Systems for Urban Decarbonisation

Professor Rajat Gupta

Sponsored by

Chair's Award – Professor Saheed Ajayi

#747 - Bridging Innovation and Sustainability: A Systematic Review of Barriers to Robotics in Infrastructure Projects

Dr Saeed Reza Mohandes

Sponsored by

Chair's Award – Dr Alison Pooley

#716 – Technical Practitioner Perspectives on the Social Feasibility of Decentralised Water Systems in Makoko, Nigeria

Mrs Aderonke Olanrewaju

Sponsored by

Chair's Award – Professor Mohammad Dastbaz

#720 – Extortion-Related Disruption in South African Construction: Legal–Enforcement Misalignment in Organised-Crime Responses

Mrs Shemondalay Jonas

Sponsored by

Well done to all of our presenters!
